Additional Comments:

- Jema did a great job! (x2)
- The idea of this workshop was great.
- I appreciate the perspective of all three presenters.
- Good discussion.
- The room was cold. (x2)
- This is a difficult, complex, frustrating process.
- In the end of the meeting, all of the ladies had plenty of information to share.
- Very informative class.
- The room was too hot.
- Give examples of how Local Control Accountability Plan (LCAP) funds can be used. What have other districts done?
- The room was too small for the audience. (x2)
- I wanted more on measurement.

- I think it would have been more beneficial to have an open discussion about faculty involvement in Local Control Accountability Plan (LCAP). How to help district's facilities get to the Local Control Accountability Plan (LCAP) table. Local Control Accountability Plan (LCAP)s are fairly political; how can facilities get a say?
- The last part of the presentation gave the content needed. The beginning was a nice review, but could have been done quicker to get to the ways the audience can take action.
- Just a tad too long on content of Local Control Accountability Plan (LCAP).
- Great food for thought!
- We could have used more specific information.
- The Q&A was especially helpful. This presentation certainly opens up a few more opportunities for dialogue at the district level.
- Presenters were very effective and came up with solutions to make the facilities part of the Local Control Accountability Plan (LCAP) meaningful.
- More workshops on this topic, please.
- Good general information.
- Gave me some ideas to move forward!
- The overall session was great! The audience participation was valuable and allowed others to know who to reach out to. Jema rocks!
- Find a way to show best practices.
