Current law limits this authority by requiring progress payments on the contract to not be made in excess of 95% of the percentage of actual work completed plus a like percentage of the value of material delivered on the ground or stored subject to, or under the control of, the local agency, and unused. Current law also requires the local agency to not withhold less than 5% of the contract price until final completion and acceptance of the project, unless, at any time after 50% of the work has been completed, the local agency finds that satisfactory progress is being made.
